

In CASE of MEDICAL EMERGENCY

1. Call **999 FIRST**

2. If on your own or need help, call VETS: **01733 530911**

3. If you need the Defibrillator.

- **Either:** Call VETS 01733 530911 and someone will bring it to you and operate it.
- **Or:** Collect the Defibrillator from Marholm Village Hall. You will be given the access code when you ring **999**. Only do this if there is someone with you who can continue CPR.
- Always apply CPR if someone is possibly experiencing a Heart Attack. There is a significantly higher chance of recovery if you apply CPR and use a Defibrillator.

VETS

- VETS Volunteer Emergency Telephone Service is a Marholm village volunteer service that offers help in an emergency. The number (01733 530911) simultaneously rings all the registered local volunteers and the first to answer and accept the request, will come to help you. Please be aware, that no one may be available at the time of calling and the phone may not be answered.
- Please ensure you tell the VETS respondent, where you are and if you need the Defibrillator. Note the 999 service will advise on defibrillator.
- The VETS number 01733 530911 is for support in Marholm only. It does not offer a service elsewhere.
- VETS is NOT a substitute for calling 999 and the emergency services.
- VETS can be called if you need assistance in other emergency situations.
